Research

5.2.37 There is a need for an effective system of wildlife management, and to be effective, the system of management requires an efficient, co-ordinated research effort. Interim Decisions

- 5.3.24 When urgent and unusual circumstances require an immediate modification in harvesting activities, the Minister or the Minister's delegated agent may make and implement any reasonable interim decision. The NWMB shall conduct a full review as soon as practicable thereafter.

Ministerial Management Initiative

- 5.3.25 Nothing in this Article will prevent a Minister, on the Minister's own initiative, from referring a management matter to the NWMB. Where a matter is referred, the NWMB shall deal expeditiously with it. The NWMB will respond to Ministerial initiatives with decisions in time to permit Ministers to meet their national and international obligations.

PART 4: NUNAVUT WILDLIFE HARVEST STUDY

- 5.4.1 A Nunavut Wildlife Harvest Study (Study) shall be undertaken in, and cover, each of the three Regions of the Nunavut Settlement Area. Terms of reference for the Study are set out in Schedule 5-5.
- 5.4.2 The Study shall begin in each of the three Regions on or before the first anniversary of the date of ratification of the Agreement. The Study shall be carried out under the direction of the NWMB.
- 5.4.3 The research, data collection and fieldwork associated with the Study shall be designed to promote maximum harvester participation and shall be contracted to an appropriate DIO, and supervised by the NWMB.
- 5.4.4 The Study shall be undertaken over a period of five years, and shall be fully funded by Government. The NWMB shall prepare a budget for the Study which will be subject to review by Government.
- 5.4.5 The purpose of the Study shall be to furnish data, to establish current harvesting levels, to assist the NWMB in establishing levels of total allowable harvest and, in general, to contribute to the sound management and rational utilization of wildlife resources in the Nunavut Settlement Area. To this end, the Study shall:
- (a) document the levels and patterns of Inuit use of wildlife resources for the purpose of determining the basic needs level; and
 - (b) gather, review and analyse existing biological, ecological and harvest data pertinent to the management of wildlife in the Nunavut Settlement Area.
- 5.4.6 Raw and interpreted data produced from the Study shall be fully and freely available to the Government of Canada, the Territorial Government and Inuit.
- 5.4.7 The NWMB shall ensure that the names of individual harvesters are not revealed when making available data pursuant to Section 5.4.6.

-
- 5.4.9 The NWMB shall report annually on the progress of the Study. Upon completion of the Study, the NWMB shall publish a comprehensive summary of the findings of the research.

PART 5: INUIT BOWHEAD KNOWLEDGE STUDY

- 5.5.1 Commercial harvesting of bowhead whales earlier this century by non-Inuit greatly reduced the stocks of bowhead whales found in the Nunavut Settlement Area. Government acknowledges that Inuit view that, following the cessation of commercial harvesting, stocks of bowhead whales in the Nunavut Settlement Area have increased in recent decades as a result, in part, of Inuit voluntarily curtailing their harvesting practices to allow the recovery of the bowhead whale population.
- 5.5.2 The NWMB shall conduct an Inuit knowledge study to record sightings, location and concentrations of bowhead whales in the Nunavut Settlement Area. The study shall be completed within five years of the date of ratification of the Agreement. The amount of \$500,000 shall be included in the NWMB budget for this study.

PART 6: HARVESTING

Inuit Rights to Harvest

- 5.6.1 Where a total allowable harvest for a stock or population of wildlife has not been established by the NWMB pursuant to Sections 5.6.16 and 5.6.17, an Inuk shall have the right to harvest that stock or population in the Nunavut Settlement Area up to the full level of his or her economic, social, and cultural needs, subject to the terms of this Article.
- 5.6.2 For the purpose of Section 5.6.1, full level of needs means full level of harvest.
- 5.6.3 Where a total allowable harvest for a stock or population of wildlife has been established by the NWMB pursuant to Sections 5.6.16 to 5.6.18, an Inuk shall have the right to harvest that species in accordance with the terms of this Article.
- 5.6.4 Any restriction or quota on the amount of wildlife that may be harvested that is in force immediately prior to the date of ratification of the Agreement shall be deemed to have been established by the NWMB, and shall remain in effect until removed or otherwise modified by the Board in accordance with this Article.

Presumptions as to Needs

- 5.6.5 Subject to Section 5.6.6, the NWMB shall presume as a matter of fact and without further evidence that Inuit need the total allowable harvest established by the NWMB of:
- (a) all bears;
 - (b) musk-ox;
 - (c) bowhead whales;
 - (d) all migratory birds and their eggs except migratory game birds, as listed in Part I of Schedule 5-3, during the fall season, beginning every September 1;
 - (e) all raptors, including owls; and
 - (f) eiderdown from eider duck nests.

-
- 5.6.6** Except where unpredicted and extensive growth of a wildlife population dictates otherwise, the NWMB shall not examine a presumption set out in Section 5.6.5 for the purpose of rebuttal until 20 years after the date of ratification of the Agreement.
- 5.6.7** The NWMB may examine a presumption for the purpose of rebuttal after 20 years has expired and at intervals thereafter of not less than five years.
- 5.6.8** The NWMB shall not be under any obligation to examine a presumption for the purpose of rebuttal unless requested to do so by the appropriate Minister of the Government of Canada or Territorial Government, or by an HTO or RWO.
- 5.6.9** In assessing the economic, social and cultural needs of Inuit, the NWMB shall consider:
- (a) actual levels of harvest;
 - (b) availability of and accessibility to wildlife; and
 - (c) the general economic, social and cultural conditions and circumstances of Inuit.
- 5.6.10** In examining a presumption for the purpose of rebuttal, the NWMB shall treat each discrete population of wildlife on a case-by-case basis.
- 5.6.11** Presumptions as to need shall not be implemented so as, in themselves, to prevent government wildlife officers and researchers from harvesting wildlife for purposes of research or of predator or disease control, as approved by the NWMB.
- Forbearers***
- 5.6.12** No person other than a person mentioned in Section 5.6.13 may harvest furbearers in the Nunavut Settlement Area.
- 5.6.13** Subject to the terms of this Article, the following persons, may harvest furbearers in the Nunavut Settlement Area, namely:
- (a) an Inuk;
 - (b) a person who on October 27, 1981, held a valid General Hunting Licence, and who actually harvested furbearers in those areas in the Nunavut Settlement Area, where that person desires to continue to harvest furbearers after the date of the ratification of the Agreement, the burden of proving that the person qualifies under this Sub-section being on that person; and
 - (c) a person whose application has been approved and recommended by an HTO of the place where the applicant desires to harvest furbearers, and subject to any terms and conditions imposed by the HTO.
- 5.6.14** Persons mentioned in Sub-sections 5.6.13(b) and (c) shall be subject to laws of general application.
- 5.6.15** For the purposes of Section 5.6.13, a General Hunting Licence held by a person who is not an Inuk is deemed to be a personal licence only, and is neither transferable nor heritable.

Total Allowable Harvest

- 5.6.16 Subject to the terms of this Article, the NWMB shall have sole authority to establish, modify or remove, from time to time and as circumstances require, levels of total allowable harvest or harvesting in the Nunavut Settlement Area.
- 5.6.17 A total allowable harvest of a stock or population maybe expressed in numbers, weight or any other method considered appropriate by the NWMB and shall be expressed:
- (a) in the case of a species ordinarily harvested by members of a single HTO, in terms of a community total allowable harvest, and
 - (b) in the case of a species ordinarily harvested by members of more than one HTO, in terms of a regional total allowable harvest.
- 5.6.18 By the first anniversary of the commencement of the study pursuant to Part 5, the NWMB shall establish a total allowable harvest for harvesting by Inuit in the Nunavut Settlement Area of at least one bowhead whale, subject to Sections 5.3.3. to 5.3.6 and considering the results of the study to date and other information as maybe available to it. For greater certainty, the decision of the NWMB respecting the total allowable harvest is subject to Sections 5.3.16 to 5.3.23. Thereafter, the total allowable harvest shall be dealt with by the NWMB from time to time under Sections 5.6.16 and 5.6.17, considering the results of the study and other information as may become available.

Basic Needs Level

- 5.6.19 Where a total allowable harvest has been determined by the NWMB in accordance with Sections 5.6.16 and 5.6.17, the NWMB shall strike a basic needs level in accordance with this Part.
- 5.6.20 The basic needs level shall constitute the first demand on the total allowable harvest. Where the total allowable harvest is equal to or less than the basic needs level, Inuit shall have the right to the entire total allowable harvest.
- 5.6.21 For each stock or population subject to a total allowable harvest at the commencement of the Study, the NWMB shall calculate a basic needs level according to either:
- (a) the aggregate of the greatest amount harvested in any one year during the Study, and the average annual amount harvested over the five years of the Study, which aggregate is then divided by two; or
 - (b) the amount harvested in any year during the Study that is nominated by an HTO at the conclusion of the Study, and the nominated year shall apply to all species subject to a total allowable harvest at the commencement of the Study.
- 5.6.22 In making a calculation under Section 5.6.21, the method described in Sub-section 5.6.21(a) shall be used unless an HTO elects within six months of the commencement of the Study to use the method described in Sub-section 5.6.21(b).
- 5.6.23 Where a total allowable harvest is established with respect to a stock or population not previously subject to a total allowable harvest, the NWMB shall calculate the basic needs level as the higher of:
- (a) an amount based on data from the original five year harvest Study, calculated according to the method described in Sub-section 5.6.21(a), or, where an HTO

has previously elected the method described in Sub-section 5.6.21(b), the harvest level of the stock or population in the identified year; or

- (b) the aggregate of the greatest amount harvested in any one year during the five years prior to imposition of a total allowable harvest and the average annual amount taken-over the five years of the Study, which aggregate is then divided by two.

5.6.24 In making any calculations under Sub-section 5.6.23(b), the NWMB shall rely on the best evidence available as to the levels of harvesting by Inuit in the five years prior to establishment of a total allowable harvest.

5.6.25 The NWMB shall establish the basic needs levels for beluga, narwhal and walrus within 12 months of the NWMB being established taking into account the fact that they are in short supply in some areas and therefore that the harvest by Inuit has been and is artificially low in relation to their needs and does not necessarily reflect their full level of needs.

Adjusted Basic Needs Level

5.6.26 The NWMB shall periodically review the basic needs level for each stock or population and determine whether an additional allocation is required to meet any or all of:

- (a) increased consumption or use by Inuit;
- (b) intersettlement trade; and
- (c) marketing for consumption or use in the Nunavut Settlement Area.

5.6.27 In reaching its decision, the NWMB shall take into consideration the following factors:

- (a) population growth and demographic change on a community and regional basis, including the establishment of new communities;
- (b) changing patterns of consumption, assignment and other uses including adjustments for intersettlement trade and marketing in the Nunavut Settlement Area;
- (c) the nutritional and cultural importance of wildlife to Inuit;
- (d) variations in availability of and accessibility to species other than the species under consideration; and
- (e) current use of wildlife for personal consumption by other residents in light of their length of residency.

5.6.28 Where review by the NWMB indicates that an adjustment is required, the NWMB shall set an adjusted basic needs level.

5.6.29 The adjusted basic needs level may expand up to the entire total allowable harvest. In any year the adjusted basic needs level may float upward or downward, but shall never fall below the basic needs level.

5.6.30 The NWMB shall conduct its review for various stocks or populations from time to time as requested by the appropriate Minister, by an HTO or RWO, or by a member of the NWMB.

surplus

- 5.6.31 The NWMB shall determine the allocation of the surplus in the following order and priority:
- (a) to provide for personal consumption by other residents as described in Sections 5.6.32 to 5.6.37;
 - (b) to provide for the continuation of existing sports and other commercial operations as described in Section 5.6.38;
 - (c) to provide for economic ventures sponsored by HTOS and RWOS as described in Section 5.6.39; and
 - (d) to provide for other uses as described in Section 5.6.40.

Other Residents

- 5.6.32 From the surplus the NWMB shall first allocate a portion for personal consumption by other residents.
- 5.6.33 Personal consumption by other residents means consumption in the Nunavut Settlement Area by other residents or by their dependents.
- 5.6.34 The allocation for other residents shall be up to 14% of the amount remaining after the allocation of the basic needs level.
- 5.6.35 In any year the NWMB may supplement the allocation to other residents for their personal consumption after the NWMB has satisfied the requirements of economic ventures sponsored by HTOS and RWOS as described in Section 5.6.39;
- 5.6.36 When the allocation for other residents is calculated, the terms of access to such allocation shall be determined and administered by the appropriate government agency.
- 5.6.37 Harvesting by a person other than an Inuk shall be subject to this Article and all laws of general application.

Existing Sports and Other Commercial Operations

- 5.6.38 From the portion, if any, of the surplus remaining after the allocation to other residents, the NWMB shall allocate a portion adequate to sustain the continuation of sports and other commercial operations for which lawful authorization is still in existence at the time the surplus is being allocated.

Priority Harvesting By Inuit Organizations

- 5.6.39 From the portion of the surplus after the allocation for existing sports and other commercial operations, the NWMB shall allocate resources to support the establishment and continued operation of viable economic ventures, including sports and all other forms of commercial ventures, designed to benefit Inuit. These ventures must be sponsored by HTOS and RWOS.

Allocation of the Remainder

- 5.6.40 If any portion of the surplus remains, the NWMB shall allocate the remainder among "commercial, commercial sports, recreational, or other uses, considering the various demands on the resource and the benefits that may accrue to the local economy. Any portion of the surplus allocated for commercial use will be governed by a limited entry system for commercial harvesting as described in Sections 5.6.45 to 5.6.47.

Inuit Guides

- 5.6.41 A person other than an Inuk who harvests big game must:
- (a) hold a valid licence issued by the appropriate government agency; and
 - (b) for at least two years following the acquisition of the licence, be accompanied by an Inuk approved as a guide by an HTO in accordance with any qualifications established by the NWMB.
- 5.6.42 The requirement for a guide referred to in Subsection 5.6.41(b) shall not apply where the HTO waives such requirement or where no guides are approved by an HTO.

Moving into the Nunavut Settlement Area

- 5.6.43 Every Canadian citizen and permanent resident within the meaning of the *Immigration Act* who:
- (a) has been resident in the Nunavut Settlement Area for 18 months before the date of ratification of the Agreement, or
 - (b) has been resident in other parts of the Northwest Territories for 18 months preceding the date of ratification of the Agreement and who becomes ordinarily resident in the Nunavut Settlement Area within five years of the date of ratification of the Agreement,

shall be eligible for hunting and fishing privileges in the Nunavut Settlement Area without further residency requirement unless otherwise disqualified under laws of general application.

General Hunting Licence Holders

Limited Entry System

- 5.6.45 In the allocation of commercial licences, preference will be given to:
- (a) an applicant who has made his principal residence in the Nunavut Settlement Area for at least 18 continuous months prior to the submission of his or her application and such residence must be real and not notional; and
 - (b) applications which will likely provide direct benefits to the Nunavut Settlement Area economy, in particular through employment of local human and economic resources.
- 5.6.46 The limited entry system is not intended to exclude Inuit from applying for access to commercial opportunities, but Inuit shall have at least the same right to apply as all other persons who qualify and to have their applications considered on their merits.

Right of Access by Inuit

5.7.16 Subject to Section 5.7.18, all Inuit shall have the free and unrestricted right of access for the purpose of harvesting to all lands, water and marine areas within the Nunavut Settlement Area, except the lands described in Section 5.7.17, and without limiting the generality of the foregoing, the said right of access shall extend to all Crown lands, including, for greater certainty, Parks and Conservation Areas, and, to all lands vested in a municipal corporation.

WILDLIFE COMPENSATION**PART 1: DEFINITIONS AND INTERPRETATION****6.1.1 In this Article:**

“claimant” means Inuit or an Inuk;

“compensation” means monetary compensation including cash payment in a lump sum or by installments, and also includes non-monetary compensation such as the cost of temporary or permanent relocation, replacement or repair of property, and reimbursement in kind, subject to conservation limits, or any combination thereof;

“developer” means any person engaged in development activity;

“development” means any commercial or industrial undertaking, any municipal, territorial, provincial or federal government undertaking or extension thereof, on land or water in the Nunavut Settlement Area and in Zones I and II but does not include:

(a) marine transportation; or

(b) any wildlife measure or use approved in accordance with Article 5;

“wildlife” does not include flora.

6.1.2 This Article shall be interpreted in a manner consistent with Canada’s sovereignty, sovereign rights and jurisdiction and with Canada’s international obligations,**PART 2: APPLICATION**

6.2.1 The wildlife compensation provisions in Articles 20 and 21 apply to damage which can be determined in advance. All other claims for wildlife compensation will be made through the provisions of this Article.

6.2.2 Subject to Section 6.2.3, this Article shall apply to marine transportation directly associated with any commercial or industrial or any municipal, territorial, provincial or federal government undertaking, or any extension thereof, on land or water in the Nunavut Settlement Area and in Zones I and II but does not apply to marine transportation not directly associated with such undertakings.

6.2.3 The Government of Canada shall specify a person, a fund, or both, capable of assuming the liability for marine transportation imposed under this Article by Section 6.2.2, and that specified person, or fund, or both, shall be considered to be a developer and that marine transportation shall be considered to be a development activity for the purpose of this Article.

6.2.4 In respect of commercial marine transportation through waters in the Nunavut Settlement Area and in Zones I and II, other than for marine transportation to which this Article applies pursuant to Section 6.2.2, Inuit will be entitled to wildlife compensation under laws of general application. Provision for such wildlife compensation under laws of general application in the Nunavut Settlement Area shall provide protection for Inuit on at least as favorable a basis as protection afforded to wildlife harvesters in other marine areas of Canada under laws of general application.

PART 3: GENERAL PRINCIPLE OF LIABILITY

- 6.3.1 A developer is liable absolutely, without proof of fault or negligence, for loss or damage suffered by a claimant as a result of its development activity within the Nunavut Settlement Area in respect of:
- (a) loss or damage to property or equipment used in wildlife harvesting or to wildlife reduced into possession;
 - (b) present and future loss of income from wildlife harvesting; and
 - (c) present and future loss of wildlife harvested for personal use by claimants.
- 6.3.2 A developer is not liable where that developer establishes that the loss or damage was wholly the result of an act of war, hostilities, civil war, insurrection, or natural phenomenon of an exceptional, inevitable and irresistible character.
- 6.3.3 Claimants shall make all reasonable attempts to mitigate against any loss or damage.
- 6.3.4 Legislation may provide for appropriate limits of liability of developers or the methods of setting such limits and shall also require proof of fiscal responsibility and may also provide for security deposits and any other matters not inconsistent with this Article. Recognizing Inuit concerns regarding collection of compensation, Government will give consideration to including enforcement mechanisms. Limits on liability will be set at levels sufficient to cover reasonably foreseeable damages in relation to various development activities.

PART 4: PROCEDURE FOR MAKING A CLAIM

- 6.4.1 A claimant, or a DIO or HTO on behalf of a claimant, shall make a claim for loss or damage in writing to the developer. If the claim is not settled within 30 days, the developer or the claimant, or a DIO or HTO on behalf of the claimant, may submit the claim to the Tribunal.

The Tribunal may appoint experts and may call witnesses.
- 6.4.4 As a general principle, compensation shall not be a guaranteed annual income in perpetuity. A compensation award may be reviewed by the Tribunal at the request of either party to the hearing.
- 6.4.5 A claim must be made within three years of the date on which the loss or damage occurred, or within three years of the date on which the loss or damage became known to the claimant.
- 6.4.6 The Tribunal shall hear the case and determine liability and compensation. The Tribunal shall make a decision within 30 days of completing the hearing of a claim.

-
- 6.4.7** Recognizing that it is the intention that loss or damage suffered by a claimant should be minimized by expeditious processing of claims and payment of compensation, the Tribunal may:
- (a) deal with a claim in respect of loss or damage to property or equipment used in wildlife harvesting or to wildlife reduced into possession before proceeding to hear evidence on any other loss or damage;
 - (b) require that interest be paid on monetary compensation at a rate set by the Tribunal; and
 - (c) provide for additional compensation to cover any additional loss or damage, and costs, including costs of collection, that may result from any delay in fulfilling the terms of a compensation decision.
- 6.4.8** At the request of a claimant, the Tribunal shall register the compensation decision in the superior court having jurisdiction over the Nunavut Settlement Area and the claimant may use that court to enforce the decision. The Tribunal may provide assistance in the enforcement of its decision.
- 6.4.9** When the Tribunal decides where to hold a hearing, the convenience of the claimant shall be a major factor.
- 6.4.10** When the Tribunal determines that loss or damage was caused by more than one developer, those developers shall be severally liable. The Tribunal shall apportion liability in accordance with generally accepted principles of statute and common law.
- 6.4.11** The expenses incurred by the Tribunal in determining claims under this Article shall not be borne by the claimant nor any DIO or HTO acting on behalf of a claimant. The costs incurred by an HTO acting on behalf of a claimant shall not be the responsibility of the NWMB.

PART 5: OTHER MATTERS

- 6.5.1** Where an IIBA includes wildlife compensation provisions, that agreement shall preclude the need to address wildlife compensation under Articles 20 and 21.
- 6.5.2** In negotiating an IIBA, or an agreement referred to in Section 6.6.2, the parties to such negotiations are not limited to the definition of loss or damage in this Article. Subject to this Section, for all other purposes of the Agreement, wildlife compensation shall be interpreted to mean compensation for that loss or damage referred to in Section 6.3.1.

PART 6: SAVINGS

- 6.6.1** The provisions of this Article are without prejudice to any other rights or remedies that the claimant may have under laws of general application with respect to loss or damage arising out of development activity. However, if the claim is referred to the Tribunal under Section 6.4.1, the decision of the Tribunal shall be conclusive in relation to all losses or damages described in Sub-sections 6.3.1(a), (b) and (c), subject only to review by the Federal Court of Appeal under Section 28 of the *Federal Court Act*, R.S.C. 1985, c.F-7. If a claim against a developer is dismissed, a claimant is not precluded from claiming the same loss or damage against a different developer.

-
- 6.6.2 Nothing in this or any other Article relating to wildlife compensation prevents Inuit and a developer from entering into a wildlife compensation agreement that would replace all other obligations in relation to wildlife compensation under this Agreement.
- 6.6.3 Nothing in this Article shall be construed as limiting or restricting any right of recourse that a developer who is liable under Part 3 may have against any person other than the claimant.

7.2.1 Inuit may, subject to the terms of the Agreement, continue to occupy outpost camps.

7.2.2 From the date of ratification of the Agreement, Inuit may, subject to the exceptions mentioned in Sections 7.2.3 and 7.2.4, and also subject to the approval of the appropriate HTO or HTOS, establish and occupy new outpost camps in any lands in the Nunavut Settlement Area where Inuit enjoy a general right of access for the purpose of wildlife harvesting as granted by Section 5.7.16. The approval of the appropriate HTO or HTOS shall not be unreasonably withheld.

(c) that are within the municipal boundaries, without the approval of the Municipal Corporation, provided that such approval shall not be unreasonably withheld.

7.2.4 Inuit may establish outpost camps in Parks and Conservation Areas, except where the establishment of such camps is inconsistent with the requirements of the Park or Conservation Area management plan required in Sections 8.4.13 and 9.3.7. Site locations shall be determined as provided by an IIBA between the DIO and the appropriate management agency.

PART 3: TENURE OF OUTPOST CAMPS

7.3.1 Inuit shall occupy the outpost camps referred to in Sections 7.2.1 and 7.2.2 as tenants-at-will.

-
- 7.3.2 A tenancy-at-will shall continue until Inuit occupants receive notice from Government of an intention to make use of the lands so occupied for purposes that would be inconsistent with the presence of the camp, or would remove the lands from the general right of access by Inuit for wildlife harvesting as granted by Section 5.7.16. Upon receipt of written notice, the occupants shall have a reasonable period of time within which to remove their possessions.
- 7.3.3 Where Inuit notify Government of their actual or intended occupation of an outpost camp and where Government does not identify in writing any use or interest that would be inconsistent in the immediate future with the presence of the camp, Inuit may, notwithstanding anything in Section 7.3.2, continue to occupy the camp until one year after Government "has given notice in writing of an intention to make use of the lands.

PART 4: GOVERNMENT TO MAKE LANDS AVAILABLE

- 7.4.1 Upon request by potential occupiers of outpost camps or by a DIO on their behalf, governmental owners of lands in the Nunavut Settlement Area shall make available such lands as are adequate, suitable and reasonably necessary for the purpose of establishing outpost camps. The lands may be provided under lease or by licence of occupation or in such other manner as to implement the intent of this section. The term shall be for five years or such longer period as may be reasonable. Renewal of a lease, upon request by the occupiers or by the DIO on their behalf, shall not be unreasonably withheld. Where an outpost camp is requested for establishment in Parks and Conservation Areas, Section 7.2.4 will apply.

PART 5: GENERAL RIGHTS

- 7.5.1 Inuit occupying or establishing outpost camps shall not be liable to pay any fee, levy, rent or like tax for the purpose of such occupation or establishment, associated with the purposes of wildlife harvesting.
- 7.5.2 The holders of rights in the subsurface of lands occupied as outpost camps shall enjoy the same rights of access as are available to subsurface rights holders through common law or statute.
- 7.5.3 As a general principle, the internal operation and management of outpost camps shall be left to the discretion of Inuit occupying the camp.

PART 6: OTHER MATTERS

- 7.6.1 Organizations and agencies responsible for the management of wildlife, lands, resources or the offshore as provided for in the Agreement or legislation shall endeavor to protect the interests and well-being of Inuit occupying outpost camps.
- 7.6.2 Nothing in the Agreement shall prevent outpost camps from becoming communities or municipalities.
- 7.6.3 Inuit may establish, subject to Section 7.2.4, outpost camps on archaeological sites. The Trust may develop policy guidelines for the use and occupation of archaeological sites. The Trust may put in place terms and conditions regarding the use and occupation of a site or sites.

PART 3: TERRITORIAL PARKS

General Desirability

- 8.3.1 It is generally desirable to establish Territorial Parks in the Nunavut Settlement Area.

- (a) first conduct an extensive process of public consultation; and
 - (b) offer the lands to a DIO
 - (i) at a favorable price where the Territorial Government intends to dispose of the lands, or
 - (ii) at the election of the DIO, in exchange for a comparable amount of Inuit Owned Lands; but this election shall not apply in circumstances where the Territorial Government intends to remove the lands from Territorial Parks status solely for the purpose of establishing its own facilities or operations on the lands in question.
- 8.3.3 Subsection 8.3.2.(b) shall not apply to marine areas within Territorial Parks.

Involvement of Inuit — Generally

- 8.3.4 The territorial government and Inuit agree to the general desirability of involving Inuit, and other local residents, in the planning and management of Territorial Parks in the Nunavut Settlement Area. Accordingly, in addition to all other rights and benefits of these provisions, Inuit and other local residents of the Nunavut Settlement Area shall be involved in the planning and management of Territorial Parks in the Nunavut Settlement Area.

- 8.3.6 Article 11 shall not apply to or within the boundaries of Territorial Parks once they have been established.
- 8.3.7 Article 12 shall apply to project proposals in Territorial Parks.
- 8.3.8. Articles 13 and 20 shall apply to waters in Territorial Parks in the Nunavut Settlement Area.
- 8.3.9 When the Territorial Government and the affected DIOS agree, they may negotiate Inuit participation in the planning and management of Territorial Parks on a Regional or by a Territorial Park category basis.

Proposed Katannilik Territorial Park

- 8.3.10 In the event that the proposed Katannilik Territorial Park is established prior to the date of the ratification of the Agreement so as to enclose the Inuit Owned Lands Parcel LH-5/25K, such establishment shall in no way limit the rights of access flowing to the DIO, as a consequence of its ownership of the minerals, at common law and as recognized by the Agreement, but the rights of access are subject to any conditions in an IIBA respecting the protection of the environment and the integrity of the Park.

-
- 8.3.11 In the event that the proposed Katannilik Territorial Park is not established prior to the date of ratification of the Agreement, the DIO shall have the right to acquire, as Inuit Owned Lands in the form described in Sub-section 19.2. 1(b), any or all of Inuit Lands Identification Parcels LH-25K-O1, LH-25K-O1(SSO1) and LH-25N-O1 as shown on the map titled *Inuit Lands Identification Parcels* on deposit with the registrar in exchange for an equal amount of Inuit Owned Lands within the South Baffin Land Use Region as defined in Schedule 19-3.

PART 4: GENERAL PROVISIONS APPLICABLE TO BOTH NATIONAL PARKS AND TERRITORIAL PARKS

Generally

- 8.4.1 This Part shall apply to National Parks established by the Government of Canada and Territorial Parks established by the Territorial Government.

Inuit Impact and Benefit Agreements (IIBAs)

- 8.4.2 No Park shall be established in the Nunavut Settlement Area until the obligations set out in Sections 8.4.4 and 8.4.5 have been complied with.
- 8.4.3 Where the Government of Canada, the Territorial Government and the DIO are agreeable, the Territorial Government may be made a party to the negotiation and conclusion of an IIBA pertaining to a National Park.
- 8.4.4 Prior to the establishment of a Park in the Nunavut Settlement Area, the Government responsible for the establishment of the Park, and in the case of the Government of Canada, the Canadian Parks Service in concert with other affected federal government agencies, and a DIO shall negotiate, in good faith, for the purpose of concluding an IIBA. An IIBA negotiated under this Article shall include any matter connected with the proposed park that would have a detrimental impact on Inuit, or that could reasonably confer a benefit on Inuit either on a Nunavut-wide, regional or local basis. In particular, but without limiting the generality of the foregoing, the matters identified in Schedule 8-3 shall be considered appropriate for negotiation and inclusion within an IIBA in relation to a Park.
- 8.4.5 If the Government responsible for the establishment of the Park and the DIO cannot agree on the terms of an IIBA in a reasonable period of time, they shall select a conciliator who shall submit a report to the Minister, for his consideration and decision. The obligation to conclude an IIBA with respect to any proposed Park, shall endure only as long as the other party is acting in good faith and reasonably. This Section shall not derogate from the requirement of Sections 8.4.11 to 8.4.14.

- (a) give preferential treatment to qualified Inuit contractors where Government proposes to tender such contracts; and
 - (b) ensure that all contractors give preferential treatment to Inuit.

8.4.9 A DIO shall have the right of first refusal to operate all business opportunities and ventures that are contracted out with respect to Parks in the Nunavut Settlement Area. Upon request, Government shall make available to a DIO all reports and other materials in its possession relevant to the analysis of the economic feasibility of business opportunities and ventures in Parks in the Nunavut Settlement Area.

8.4.10 Sections 8.4.8 and 8.4.9 shall not restrict the provisions of an IIBA in relation to a proposed Park in the Nunavut Settlement Area that deals with economic benefits for Inuit.

Management

8.4.11 A joint Inuit/Government parks planning and management committee ("the Committee") shall be established through an IIBA when requested either by Government or a DIO. The Committee shall consist of equal numbers of members appointed by the appropriate DIO and the appropriate territorial or federal Minister responsible for Parks. There shall be separate committees for Territorial and National Parks.

8.4.12 The Committee may advise the Minister or the Minister's designate, the NWMB, or other agencies, as it deems appropriate, on all matters related to park management.

Such plans shall be based on the recommendations of the Committee, where such a Committee is established, taking into account the recommendations of other interested persons or bodies. Upon review by the Committee, Park management plans shall be forwarded to the Minister for consideration and approval. Park management plans shall be reviewed and may be revised as provided in the plan.

8.4.14 Management plans for Parks shall accord with or be revised to accord with relevant terms and conditions of the appropriate IIBA.

New Parks

8.4.17 The establishment, after the date of ratification of the Agreement, of Parks not identified in a Schedule to this Article, as well as the expansion of a Park, shall be subject to the provisions dealing with the negotiation of an IIBA and other provisions providing Inuit with an opportunity to secure benefits from the establishment, planning and management of Parks in the Nunavut Settlement Area.

Dedication

8.4.18 Appropriate recognition shall be made of Inuit history and presence as part of the process of the establishment and operation of a Park.

Interpretation

8.4.19 In the event of a conflict between this Article and Article 5, Article 5 shall prevail.

PART 3: CONSERVATION AND MANAGEMENT

9.3.1 Government, in consultation with Inuit, shall conduct a study to determine the need for new legislation or amendments to existing legislation to designate and manage Conservation Areas in terrestrial and marine environment in the Nunavut Settlement Area. This study shall be completed and published by Government within two years of the date of ratification of the Agreement.

9.3.2 The establishment, disestablishment or changing of the boundaries of Conservation Areas related to management and protection of wildlife and wildlife habitat shall be subject to the approval of the NWMB pursuant to Sub-section 5.2.34(a). Conservation Areas shall be co-managed by Government and the DIO as provided in Section 9.3.7.

- 9.5.2 The Territorial Government shall, within five years of the date of ratification of the Agreement, coordinate the preparation of a management plan to jointly conserve and manage the Thelon Game Sanctuary. This shall entail applying the process set out in Sections 8.4.11 and 8.4.12 for that part of the Sanctuary in the Nunavut Settlement Area, and coordinating that process with a process applicable in that part of the Sanctuary which is outside the Nunavut Settlement Area. The Thelon Game Sanctuary Management Plan shall be based on recommendations of the DIO and affected communities. This plan shall be subject to the approval of the federal and territorial governments. No changes will be made to the status of the Thelon Game Sanctuary or its boundary, until the Sanctuary management plan is approved by the federal and territorial governments. Following approval of the Sanctuary management plan, proposals to change the boundary of the Thelon Game Sanctuary, to disestablish the Sanctuary, or to alter its status shall be subject to joint public review by the NWMB and the agency having jurisdiction over management and protection of wildlife and wildlife habitat in that part of the Sanctuary which is outside the Nunavut Settlement Area. - (d) the carrying on of the work of NIRB, the management of its internal affairs, and the duties of its officers and employees;

-
- (e) the procedures for making representations and complaints to NIRB;
 - (f) the procedures and guidelines for collecting information and opinions;
 - (g) the procedures to be used and the admission of evidence at public hearings before NIRB or NIRB panels;
 - (h) the establishment of standard guidelines for preparation of impact statements; and
 - (i) generally, the manner of conducting any business of or before NIRB.

Public Hearings

12.2.24 In designing its by-laws and rules of procedure for the conduct of public hearings, NIRB shall:

- (a) to the extent consistent with the broad application of the principles of natural justice and procedural fairness, emphasize flexibility and informality, and, specifically
 - (i) allow, where appropriate, the admission of evidence that would not normally be admissible under the strict rules of evidence, and
 - (ii) give due regard and weight to the tradition of Inuit oral communication and decision-making; and
- (b) with respect to any classification of interveners, allow full standing to a DIO.

12.2.25 NIRB shall have the power to subpoena witnesses, documents and things in carrying out its responsibilities.

12.2.26 NIRB shall conduct its public hearings in Canada's official languages as required by legislation or policy, and, upon request of any member, applicant or intervener, also in Inuktitut.

12.2.27 All necessary steps shall be taken by way of notice, dissemination of information, and scheduling and location of hearings to provide and promote public awareness of and participation at hearings.

Officers and Employees

12.2.28 The officers and employees necessary for the proper conduct of NIRB, including experts or persons having technical knowledge, may be appointed, and shall be remunerated by NIRB recognizing that secondment of government staff may be appropriate in certain cases.

12.2.29 Such officers and employees shall be responsible to, and under the direction and control of NIRB.

12.2.30 All officers and employees of NIRB shall conform to the same rules respecting conflict of interest as members of NIRB.

Costs of NIRB

12.2.31 ***The*** costs of NIRB shall be the responsibility of Government. NIRB shall prepare an annual budget subject to review and approval by Government.

PART 3: RELATIONSHIP TO THE LAND USE PLANNING PROVISIONS

- 12.3.1 Where the NPC determines, pursuant to Section 11.5.10, that a project proposal is in conformity with the land use plans, or a variance has been approved, the NPC shall, subject to Sections 12.3.2, 12.3.3 and 12.4.3, forward the project proposal with its determination and recommendations to NIRB for screening.
- 12.3.2 Project proposals falling within Schedule 12-1 shall be exempt from the requirement for screening by NIRB. The NPC shall not forward such project proposals to NIRB.
- 12.3.3 Notwithstanding Section 12.3.2, the NPC may refer a project proposal falling within Schedule 12-1 to NIRB for screening, where the NPC has concerns respecting the cumulative impact of that project proposal in relation to other development activities in a planning region.
- 12.3.4 NIRB shall not screen project proposals that are not in conformity with land use plans, unless an exemption has been received under 11.5.11 or a variance has been approved under Section 11.5.10.
- 12.3.5 Sections 12.3.1 to 12.3.4 shall apply where a land use plan has been approved pursuant to Section 11.5.9. In the absence of an approved land use plan, all project proposals other than those that fall within Schedule 12-1 shall be referred directly to NIRB for screening.

PART 4: SCREENING OF PROJECT PROPOSALS

- 12.4.1 Upon receipt of a project proposal, NIRB shall screen the proposal to determine whether it has significant impact potential, and therefore whether it requires review under Part 5 or 6.
- 12.4.2 In screening a project proposal, NIRB shall be guided by the following principles:
- (a) NIRB generally shall determine that such a review is required when, in its judgement,
 - (i) the project may have significant adverse effects on the ecosystem, wildlife habitat or Inuit harvesting activities,
 - (ii) the project may have significant adverse socio-economic effects on northerners,
 - (iii) the project will cause significant public concern, or
 - (iv) the project involves technological innovations for which the effects are unknown;
 - (b) NIRB generally shall determine that such a review is not required when, in its judgement, the project is unlikely to arouse significant public concern and
 - (i) the adverse ecosystemic and socio-economic effects are not likely to be significant, or
 - (ii) the project is of a type where the potential adverse effects are highly predictable and mitigable with known technology; and
 - (c) in determining whether a review is required or not NIRB shall give greater weight to the provisions of Sub-section 12.4.2(a).

-
- 12.4.3 Any application for a component or activity of a project proposal that has been permitted to proceed in accordance with these provisions shall be exempt from the requirement for screening by NIRB unless:
- (a) such component or activity was not part of the original proposal; or
 - (b) its inclusion would significantly modify the project.
- 12.4.4 Upon receipt of a project proposal, NIRB shall screen the proposal and indicate to the Minister in writing that:
- (a) the proposal may be processed without a review under Part 5 or 6; NIRB may recommend specific terms and conditions to be attached to any approval, reflecting the primary objectives set out in Section 12.2.5;
 - (b) the proposal requires review under Part 5 or 6; NIRB shall identify particular issues or concerns which should be considered in such a review;
 - (c) the proposal is insufficiently developed to permit proper screening, and should be returned to the proponent for clarification; or
 - (d) the potential adverse impacts of the proposal are so unacceptable that it should be modified or abandoned.
- 12.4.5 NIRB shall carry out its responsibilities under Section 12.4.4:
- (a) where there is a legal requirement for a licensing authority to make a decision within a certain time period, within a time period that would allow the licensing authority to conform with that requirement;
 - (b) with the approval of the Minister, within a time period exceeding 45 days; or
 - (c) in any other situation, within 45 days.
- 12.4.6 Where NIRB indicates to the Minister that a proposal may be processed without review, the proposal shall be processed under relevant legislation, unless the Minister decides to refer it for such a review.
- 12.4.7 Where NIRB indicates to the Minister that a proposal requires review, the Minister shall:
- (a) where required, by law or otherwise, refer the proposal to the Minister of the Environment for review by a federal environmental assessment panel; such review shall include both socio-economic and ecosystemic impacts;
 - (b) where a proposal is not to be reviewed by a federal environmental assessment panel, refer the proposal to NIRB for a review of the ecosystemic and socio-economic impacts in the Nunavut Settlement Area; or
 - (c) where the proposal is not in the national or regional interest, inform the proponent that the proposal should be abandoned or modified and resubmitted to NIRB to be dealt with in accordance with Section 12.4.4.
- 12.4.8 Where NIRB indicates to the Minister that a proposal should be returned to the proponent for clarification, the Minister shall return the proposal to the proponent for clarification and resubmission to NIRB to be dealt with in accordance with Sub-sections 12.4.4(a), (b) or (d).

-
- 12.4.9 Where NIRB indicates to the Minister that a proposal should be modified or abandoned, the Minister, after consultation with NIRB, shall:
- (a) return the proposal to the proponent for modification and resubmission to NIRB to be dealt with in accordance with Section 12.4.4;
 - (b) where it appears to be in the national or regional interest that a proposal be reviewed, refer the proposal for review as provided in Sub-sections 12.4.7(a) or (b) accompanied by written reasons for that decision; or
 - (c) inform the proponent that the project should be abandoned.

PART 5: REVIEW OF PROJECT PROPOSALS BY NIRB

- 12.5.1 In sending a proposal for review, the Minister may identify particular issues or concerns which NIRB shall consider in such a review. This shall not limit NIRB from reviewing any matter within its mandate.
- 12.5.2 When a project proposal has been referred to NIRB by the Minister for review, NIRB shall, upon soliciting any advice it considers appropriate, issue guidelines to the proponent for the preparation of an impact statement. It is the responsibility of the proponent to prepare an impact statement in accordance with any guidelines established by NIRB. Where the original project proposal submitted by the proponent for screening contains the information required for an impact statement, NIRB may accept the original project proposal instead of requiring the preparation of an impact statement. Where appropriate, an impact statement shall contain information with respect to the following:
- (a) project description, including the purpose and need for the project;
 - (b) anticipated ecosystemic and socio-economic impacts of the project;
 - (c) anticipated effects of the environment on the project;
 - (d) steps which the proponent proposes to take including any contingency plans, to avoid and mitigate adverse impacts;
 - (e) steps which the proponent proposes to take to optimize benefits of the project, with specific consideration being given to expressed community and regional preferences as to benefits;
 - (f) steps which the proponent proposes to take to compensate interests adversely affected by the project;
 - (g) the monitoring program that the proponent proposes to establish with respect to ecosystemic and socio-economic impacts;
 - (h) the interests in lands and waters which the proponent has secured, or seeks to secure;
 - (i) options for implementing the proposal; and
 - (j) any other matters that NIRB considers relevant.

Hearings

- 12.5.3 NIRB may conduct its review by means of correspondence, public hearings or such other procedures as it deems appropriate to 'the nature' of the project and range of impacts.

Time Frames

- 12.5.4** **The Minister** may propose priorities and reasonable time frames for completion of the reviews.

Matters Taken into Account

- 12.5.5** NIRB shall, when reviewing any project proposal, take into account all matters that are relevant to its mandate, including the following:
- (a) whether the project would enhance and protect the existing and future well-being of the residents and communities of the Nunavut Settlement Area, taking into account the interests of other Canadians;
 - (b) whether the project would unduly prejudice the ecosystemic integrity of the Nunavut Settlement Area;
 - (c) whether the proposal reflects the priorities and values of the residents of the Nunavut Settlement Area;
 - (d) steps which the proponent proposes to take to avoid and mitigate adverse impacts;
 - (e) steps the proponent proposes to take, or that should be taken, to compensate interests adversely affected by the project;
 - (f) posting of performance bonds;
 - (g) the monitoring program that the proponent proposes to establish, or that should be established, for ecosystemic and socio-economic impacts; and
 - (h) steps which the proponent proposes to take, or that should be taken, to restore ecosystemic integrity following project abandonment.

NIRB Report

- 12.5.6** After reviewing the project proposal, NIRB shall issue a report to the Minister and the proponent containing:
- (a) its assessment of the project and its impacts;
 - (b) its determination as to whether or not the project should proceed based on its assessment under (a); and
 - (c) in the event the project were to proceed, terms and conditions reflecting the primary objectives set out in Section 12.2.5.
- 12.5.7** Upon receipt of the NIRB report, the Minister shall:
- (a) accept the report of NIRB as to whether or not the project should or should not proceed, including terms and conditions;
 - (b) where NIRB has determined that a project should proceed, reject that determination on the basis that the proposal is not in the national or regional interest; the proponent shall be so advised by NIRB;
 - (c) where NIRB has determined that a project should proceed, reject the report on the grounds that
 - (i) any of the terms and conditions are more onerous than necessary or insufficient to mitigate to an acceptable level the ecosystemic and socio-economic impacts, or

(ii) the terms and conditions are soonerous that they would underlie the viability of a project that is in the national or regional interest, and in such situations NIRB shall reconsider terms and conditions under which the project should be approved in light of the Minister's reasons;

(d) where NIRB has determined that a project should not proceed, reject that determination on the grounds that the project should have been approved because of its importance in the national or regional interest; thereupon, the Minister shall refer the report back to NIRB to consider terms and conditions which should be attached to any project approval; or

(e) where the report is deficient with respect to ecosystemic and socio-economic issues, refer the report back to NIRB for further review or public hearings; upon such further review or hearings, NIRB shall submit a further report to the Minister which shall be accepted or rejected in accordance with Sub-sections (a), (b), (c) or (d).

12.5.8 Upon considering or reconsidering the terms and conditions of a project approval further to Sub-sections 12.5.7(c) or (d), NIRB shall:

(a) within 30 days, or such time as agreed upon with the Minister, make any alterations it considers appropriate;

(b) refer its revised report back to the Minister; and

(c) make its revised report available to the public.

12.5.9 Upon receipt of a revised NIRB report under Section 12.5.8, the Minister shall:

(a) accept the terms and conditions; or

(b) reject or vary the terms and conditions, in whole or in part, on the grounds set out in Paragraphs 12.5.7(c)(i) and (ii).

12.5.10 The Minister shall Supply NIRB with written reasons for every decision.

12.5.11 Notwithstanding Sections 12.5.7 and 12.5.9, NIRB's determination with respect to socio-economic impacts unrelated to ecosystemic impacts shall be treated as recommendations to the Minister, which may be accepted, rejected or varied by the Minister without limitation to the grounds set out in Sections 12.5.7 and 12.5.9.

12.5.12 Upon completion of the process described in Sections 12.5.1 to 12.5.11 where it has been determined that a project should proceed, NIRB shall issue a project certificate including any terms and conditions which have been accepted or varied by the Minister.

PART 6: REVIEW BY A FEDERAL ENVIRONMENTAL ASSESSMENT PANEL

Generally

12.6.1 Where the Minister under Sub-section 12.4.7(a) decides to refer a project proposal to the Minister of the Environment for public review by a federal environmental assessment panel, the panel shall conduct its review in accordance with the provisions of this Part and with any other procedures, principles and general practices that provide at least the same opportunity for an open and comprehensive public review as provided by the Environmental Assessment and Review Process Guidelines Order (S.O.R./84-467, 22 June, 1984).

Membership on Panels

- 12.6.2 For a project proposal within the Nunavut Settlement Area, the Minister of the Environment shall be free to appoint members to a panel in accordance with his or her general practice, except that at least one quarter of the panel members shall be appointed from a list of nominees given to the Minister of the Environment by the DIO, and at least one quarter from a list of nominees given to the Minister of the Environment by the appropriate Territorial Government Minister. Nothing shall prevent the DIO or the Territorial Government Minister from nominating candidates who are already members of NIRB.
- 12.6.3 When a project proposal would take place both inside the Nunavut Settlement Area and an adjacent area used by another aboriginal group or groups, at least one quarter of the panel members shall be appointed from nominees of the DIO and the other relevant aboriginal group or groups, in accordance with any agreement between the DIO and the other aboriginal group or groups.
- 12.6.4 Members of panels shall:
- (a) be unbiased and free of any potential conflict of interest relative to the project proposal under review; for greater certainty no panel member who is an Inuk shall be considered biased solely because the panel member is an Inuk; and
 - (b) have special knowledge and experience relevant to the anticipated technical, environmental or social effects of the project proposal under review.

Guidelines

- 12.6.5 Once constituted, a panel may issue to the project proponent a set of guidelines for the preparation of a statement by the proponent on ecosystemic and socio-economic impacts. Any such guidelines shall where appropriate, require the statement to contain information with respect to those matters listed in Section 12.5.2. NIRB shall review the guidelines and provide input into their development.
- 12.6.6 The panel shall ensure that NIRB has adequate opportunity to review the proponent's impact statement prior to commencement of public hearings, and the panel shall take into account any recommendations or concerns that NIRB has identified.

Hearings

- 12.6.7 In the conduct of its public hearings under these provisions, a panel shall be bound *mutatis mutandis* by Sub-sections 12.2.24, 12.2.26 and 12.2.27. The panel's powers, including any powers of subpoena, shall not be less than those available to federal environment assessment and review panels established under laws of general application.

Relevant Factors

- 12.6.8 The panel, when assessing any project proposal, shall take into account all matters that are relevant to its mandate, including as appropriate those matters listed in Section 12.5.2.

Report

- 12.6.9 Upon completion of its review, the panel shall forward its report to the Minister of the Environment and the Minister, who shall make it public and who shall forward a copy to NIRB.

-
- 12.6.10 Upon receipt of the report of the panel, NIRB shall have 60 days to review the report and forward its findings and conclusions to the Minister with respect to ecosystemic and socio-economic impacts in the Nunavut Settlement Area. NIRB may identify deficiencies in the panel report, additional terms, conditions and mitigative measures that should be attached to any project approval, additional data requirements, and any other conclusions deemed pertinent by NIRB including whether or not the project proposal should proceed. In so doing, NIRB shall be guided by the primary objectives set out in Section 12.2.5.
- 12.6.11 Upon receipt of the panel report and the recommendations of NIRB the Minister shall:
- (a) accept the report with the terms and conditions proposed by the panel insofar as they apply to the Nunavut Settlement Area;
 - (b) accept the report insofar as it applies to the Nunavut Settlement Area with modifications proposed by NIRB; or
 - (c) reject the panel report or any part thereof insofar as it applies to the Nunavut Settlement Area on the following grounds
 - (i) the project proposal should be rejected on the grounds that the proposal is not in the national or regional interest, in which case the proponent shall be so advised by the Minister,
 - (ii) the project proposal should be allowed to proceed because of its importance in the national or regional interest, in which case NIRB shall consider the terms and conditions with respect to the Nunavut Settlement Area which should be attached to any approval,
 - (iii) any of the terms and conditions are more onerous than necessary or insufficient to mitigate to an acceptable level of ecosystemic or socio-economic impacts of the project, in which case, NIRB shall thereupon reconsider the terms and conditions with respect to the Nunavut Settlement Area in the light of the Minister's objections.
- 12.6.12 In considering or reconsidering the terms and conditions of a project approval, NIRB shall, within 30 days or such other period as agreed upon with the Minister, report back to the Minister, with respect to the terms and conditions which should be attached to any project approval.
- 12.6.13 Upon receipt of NIRB's report further to Section 12.6.12, the Minister shall:
- (a) accept the terms and conditions; or
 - (b) reject or vary the terms and conditions, in whole or in part, on the grounds that
 - (i) any of the terms and conditions are more onerous than necessary or insufficient to mitigate to an acceptable level the ecosystemic and socio-economic impacts in the Nunavut Settlement Area, or
 - (ii) the terms and conditions with respect to the Nunavut Settlement Area are so onerous that they would undermine the viability of a project which is in the national or regional interest.
- 12.6.14 The Minister shall supply NIRB with written reasons for every decision insofar as it applies to the Nunavut Settlement Area.

-
- 12.6.15 The role of NIRB with respect to any federal environmental assessment panel report shall be confined to those parts of that report that are applicable to or affect the Nunavut Settlement Area.
- 12.6.16 Notwithstanding Sections 12.6.11 and 12.6.13, the panel's report or NIRB's determination with respect to socio-economic impacts unrelated to ecosystemic impacts shall be treated as recommendations to the Minister, which may be accepted, rejected or varied by the Minister without limitation to the grounds set out in Sections 12.6.11 and 12.6.13.
- 12.6.17 Upon completion of the process described in Sections 12.6.1 to 12.6.16, NIRB shall issue a NIRB project certificate including any terms and conditions which have been accepted or varied by the Minister.

PART 7: MONITORING

Project Monitoring

- 12.7.1 *The terms and conditions contained in:*
- (a) a NIRB project certificate issued pursuant to Section 12.5.12 or 12.6.17;
 - (b) a recommendation of NIRB pursuant to Sub-section 12.4.4(a); or
 - (c) any approvals issued by the NWB,
- may provide for the establishment of a monitoring program for that project which may specify responsibilities for the proponent, NIRB or Government.
- 12.7.2 The purpose of a monitoring program setup pursuant to Section 12.7.1 shall be:
- (a) to measure the relevant effects of projects on the ecosystemic and socio-economic environments of the Nunavut Settlement Area;
 - (b) to determine whether and to what extent the land or resource use in question is carried out within the predetermined terms and conditions;
 - (c) to provide the information base necessary for agencies to enforce terms and conditions of land or resource use approvals; and
 - (d) to assess the accuracy of the predictions contained in the project impact statements.
- 12.7.3 Without limiting the generality of Section 12.7.2, the monitoring program setup pursuant to that section may include:
- (a) a requirement that regulatory agencies and the proponent supply NIRB with reports and information respecting project operations and impacts, and the implementation of mitigative measures;
 - (b) a requirement for a periodic evaluation by NIRB of monitoring programs for projects; and
 - (c) based on Sub-section (b), a requirement that NIRB compile a report on the adequacy of the monitoring program and on the ecosystemic and socio-economic impacts of the project.

12.7.4 Responsible government agencies and departments shall continue to fulfill their responsibilities for monitoring and data collection. Any monitoring responsibilities assigned to NIRB shall not be a duplication of those functions.

12.7.5 Any monitoring program established for a project under Section 12.7.1 shall be designed so as to avoid duplication of duties and to facilitate coordination of monitoring activities, and may, in addition to any other relevant matters, provide for the variables to be monitored and the program specifications.

General Monitoring

12.7.6 There is a requirement for general monitoring to collect and analyse information on the long term state and health of the ecosystemic and socio-economic environment in the Nunavut Settlement Area. Government, in co-operation with the NPC, shall be responsible for developing a general monitoring plan and for directing and co-ordinating general monitoring and data collection. The NPC shall:

- (a) in accordance with the plan, collate information and data provided by industry, government departments and agencies, amongst others;
- (b) in accordance with the plan, report periodically on the ecosystemic and socio-economic environment of the Nunavut Settlement Area; and
- (c) use the information collected under Sub-sections (a) and (b) to fulfill its existing responsibilities under Article 11.

12.7.7 The NPC may delegate any or all of its functions under this Part to members of the NPC or officers or employees of the NPC.

PART 8: FLEXIBILITY IN RELATION TO CERTIFICATES

12.8.1 NIRB project certificates issued under either Sections 12.5.12 or 12.6.17 may contain terms and conditions expressed to come into force at some time in the future or on the happening of any particular event or contingency.

12.8.2 NIRB may on its own account or upon application by a DIO, the proponent, or other interests, reconsider the terms and conditions contained in the NIRB certificate if it is established that:

- (a) the terms and conditions are not achieving their purpose;
- (b) the circumstances relating to the project or the effect of the terms and conditions are significantly different from those anticipated at the time the certificate was issued; or
- (c) there are technological developments or new information which provides a more efficient method of accomplishing the purpose of the terms and conditions.

12.8.3 Where the Minister determines that any of the conditions in Sub-sections 12.8.2(a), (b) or (c) have been established, NIRB shall reconsider the terms and conditions contained in a certificate, and NIRB shall produce a report of its reconsideration. The Minister may accept, reject or vary that report only on the grounds specified in Section 12.6.13. NIRB shall amend its certificate to reflect any changes as accepted, rejected or varied by the Minister.

12.8.4 For greater certainty, Section 12.5.4 applies to a reconsideration by NIRB pursuant to Section 12.8.2 or 12.8.3.

PART 9: IMPLEMENTATION

- 12.9.1 Subject to Section 12.9.3, the terms and conditions of NIRB project certificates shall be implemented by all government departments and agencies in accordance with their authorities and jurisdictional responsibilities.
- 12.9.2 Without limiting the generality of Section 12.9.1, the terms and conditions of NIRB project certificates shall, in accordance with the authorities and jurisdictional responsibilities of government departments and agencies, be incorporated in relevant permits, certificates, licences or other government approvals that the proponent may require. Government departments and agencies shall discuss with NIRB how best to implement the terms and conditions of NIRB project certificates and may provide NIRB with drafts of permits, certificates, licences and other government approvals.
- 12.9.3 Where an independent decision of a regulatory board contains terms and conditions at variance with the terms and conditions of a NIRB project certificate, the regulatory board shall provide reasons to the Government and NIRB justifying the difference. The Governor-in-Council shall consider both the independent decision of the regulatory board and the NIRB project certificate. The NIRB project certificate shall prevail unless:
- (a) with respect to an independent decision of a regulatory board where the government does not have the authority to vary that decision, it is in the national or regional interest that the project proceed; or
 - (b) with respect to any other independent decision of a regulatory board, the project is considered to be in the national or regional interest and the acceptance of the terms and conditions in the NIRB project certificate would undermine the viability of the project; or
 - (c) an amendment to the NIRB project certificate is accepted pursuant to Section 12.8.3.
- If the NIRB project certificate does not prevail, the appropriate terms and conditions contained in the NIRB project certificate shall be amended accordingly.
- 12.9.4 In this Part, “independent decision of a regulatory board” means a decision made by a statutory body in the exercise of regulatory or licensing powers in the course of which the body is not subject to specific direction or control by Government; a decision does not cease to be an independent decision of a regulatory board merely because that decision is subject to a general direction whether by guidelines, regulations or directives or to approval, variance or rescission by Government.
- 12.9.5 A decision ceases to be an independent decision of a regulatory board for the purposes of this Part where Government has varied such a decision prior to considering the conflict between the decision and the NIRB certificate.
- 12.9.6 Where there is conflict between any NIRB project certificate and a decision of a regulatory board not falling within Section 12.9.3, the NIRB project certificate shall prevail.
- 12.9.7 A licence, permit, certificate or other governmental approval which implements or incorporates any term or condition of a NIRB project certificate may not be called into question in a court of law on the grounds that the issuing agency thereby fettered its discretion or otherwise acted without jurisdiction, when implementing any term or condition of a NIRB project certificate.

-
- 12.9.8 Nothing in Sections 12.9.1 to 12.9.7 shall preclude any regulatory or government agency from reviewing a project and imposing additional or more stringent terms and conditions, or from refusing to issue a licence or approval that would be required in order to allow a proposed project to proceed.
- 12.9.9 The duty to implement referred to in Section 12.9.1 does not include an obligation on Government to amend legislation.
- 12.9.10 NIRB and the NPC shall, unless they specify otherwise, receive copies of all approvals, regulatory or otherwise, for projects for which NIRB has issued a certificate.

PART 10: ENFORCEMENT

Projects Not to Proceed

- 12.10.1 No licence or approval that would be required in order to allow a proposed project to proceed shall be issued in respect of a project that is to be screened by NIRB until the screening has been completed and, if a review pursuant to Part 5 or 6 is to be conducted, until after that review has been completed and a NIRB project certificate has been issued by NIRB pursuant to these provisions.

Exceptions

- 12.10.2 Notwithstanding Section 12.10.1, where a project proposal has been referred for review pursuant to Part 5 or 6, approvals or licences for exploration or development activities related to that project may be issued if:

- (a) the activity falls within Schedule 12-1; or
- (b) the activity can, in the judgement of NIRB, proceed without such a review.

Continuing Responsibilities

- 12.10.3 Where permits, certificates, licences or other government approvals which implement or incorporate the terms and conditions of a NIRB project certificate have been issued, the responsible government department or agency shall continue to be responsible for the enforcement of the permit, certificate, licence or other government approval.

- 12.10.4 Responsible government departments and agencies shall apply effective techniques at their disposal for enforcement under Section 12.10.3 and in applying such techniques, they shall not be confined to prosecution or to the suspension of any permit, certificate, licence or other government approval.

Standing

- 12.10.5 In addition to any person or body that is recognized by laws of general application as having standing to seek a court determination, a DIO shall have standing before an appropriate court:

- (a) to seek a determination as to whether any term or condition contained in a NIRB certificate has been implemented, and any remedy deemed appropriate by the court if the term and condition has not been implemented;
- (b) to obtain a court order compelling a person to do or prohibiting a person from doing whatever that person is, by any licence, approval, permit or contract implementing any terms or conditions of a NIRB certificate, required to do or prohibited from doing; or
- (c) to seek judicial review of decisions and orders, whether interim or final, made pursuant to this Article.

PART 11: TRANSBOUNDARY IMPACTS

Transboundary Impacts

- 12.11.1 NIRB may upon request by Government or, with the consent of Government, upon request by a DIO, review a project proposal located outside of the Nunavut Settlement Area which may have significant adverse ecosystemic or socio-economic effects on the Nunavut Settlement Area.
- 12.11.2 Without limiting the jurisdiction of NIRB or EARP as set out in this Article, the Government of Canada and the Territorial Government, assisted by NIRB, shall use their best efforts to negotiate agreements with other jurisdictions to provide for collaboration in the review of project proposals which may have significant transboundary ecosystemic or socio-economic impacts.

PART 12: APPLICATION

Geographic Application

- 12.12.1 This Article shall apply to Inuit Owned Lands.
- 12.12.2 This Article shall apply to both land and marine areas within the Nunavut Settlement Area and to the Outer Land Fast Ice Zone. Shipping associated with project proposals in the Nunavut Settlement Area shall be subject to this Article. However, normal community resupply or individual ship movements not associated with project proposals shall not be subject to Parts 4, 5 and 6.
- 12.12.3 This Article applies to the installations, facilities and activities required for the purpose of national defence. However, such installations, facilities and activities will be exempted from these provisions on an exceptional basis upon certification by the Minister of National Defence that an exemption is required in the interests of national security for reasons of confidentiality or urgency.

Limitations

- 12.12.4 No term or condition which is in contravention of any standards established by any federal or territorial environmental or socio-economic laws of general application, may be imposed pursuant to this Article.
- 12.12.5 Decisions made pursuant to these provisions shall be designed, implemented and interpreted in a manner consistent with Articles 5 and 7.

No Statutory Defence

- 12.12.6 The issuance of a NIRB project certificate shall not provide a defence of statutory authorization to an action in tort.

PART 4: RELATIONSHIP TO LAND USE PLANNING

Development of Land Use Plans

- 13.4.1 The NWB shall contribute fully to the development of land use plans as they concern water in the Nunavut Settlement Area by providing its recommendations to the NPC.

Lack of Conformity with Land Use Plans

- 13.4.2 Where pursuant to Section 11.5.10, the NPC informs the appropriate agencies that a water application does not conform to land use plans or a variance has not been approved, the application shall be rejected. If, pursuant to Section 11.5.11, the applicant subsequently requests and receives an exemption from planning conformity requirements, the application shall be processed by the NWB or NIRB as required.

Conformity with Land Use Plans

- 13.4.3 Where the NPC determines, pursuant to Section 11.5.10, that a water application is in conformity with land use plans or a variance has been approved, and where the application falls within Schedule 12-1, the NPC shall forward the application with its determinations and recommendations to the NWB for disposition, unless the NPC exercises its authority under Section 13.4.4.

- 13.4.4 Where the NPC has concerns respecting the cumulative impact of development activities in a planning region, it may refer water applications to NIRB for screening even though the application falls within Schedule 12-1.

- 13.4.5 Where the NPC determines, pursuant to Section 11.5.10, that a water application is in conformity with the land use plans or when a variance has been approved, and where the application does not fall within Schedule 12-1, the NPC shall forward the application with its determination and recommendations to NIRB for screening.

Absence of Land Use Plans

- 13.4.6 Sections 13.4.3, 13.4.4 and 13.4.5 shall apply where a land use plan has been approved pursuant to Section 11.5.9 of the Land Use Planning Provisions. In the absence of a land use plan, water applications requiring screening by NIRB shall be forwarded directly to NIRB.

PART 5: RELATIONSHIP TO DEVELOPMENT IMPACT REVIEW

- 13.5.1 Following receipt of a water application for screening, NIRB shall determine whether it requires a review pursuant to Article 12 and shall so advise the NWB.

- 13.5.2 Where the water application is referred for review under Article 12, the NWB and the review body shall coordinate their efforts to avoid unnecessary duplication in the review and processing of the application. Legislation may provide for joint hearings or authorize the NWB to forego public hearings on any water application where it has participated in a public review of the relevant water application pursuant to Article 12.

-
- 13.5.3 Where the water application is not referred for review under Article 12, the NWB may process the application.
- 13.5.4 Subject to Sections 12.10.2 and 13.5.5, where a review is required pursuant to Article 12, the NWB shall not approve any water application that forms part of that review until Article 12 has been complied with.
- 13.5.5 Notwithstanding Section 12.10.1, the NWB shall not be precluded from issuing interim, short-term approvals for water uses related to exploration or developmental work for a proposal under development impact review.

PART 6: CO-ORDINATION OF RESOURCE MANAGEMENT ACTIVITIES

- 13.6.1 The NPC, NIRB and the NWB shall co-operate and co-ordinate their efforts in the review, screening and processing of water applications to ensure they are dealt with in a timely fashion.

PART 7: WATER APPLICATION APPROVAL

- 13.7.1 With the exception of domestic or emergency use of waters as set out in Section 5 of the Northern *Inland Waters Act* RSC 1985, c. N-25, no person may use water or dispose of waste into water without the approval of the NWB.
- 13.7.2 Subject to Section 13.7.4, the NWB shall hold a public hearing before approving any application. The NWB may, where there is no public concern expressed, waive the requirement for a public hearing.
- 13.7.3 From time to time the Governor-in-Council, after consultation with or on the advice of the NWB, may by regulation prescribe certain classes or types of water applications for which a public hearing need not be held.
- 13.7.4** NWB shall deal summarily with applications prescribed by regulation under Section 13.7.3, unless the NWB considers a public hearing warranted, in which case it may hold a public hearing following, to the extent appropriate, the same procedure as for an application not so prescribed.
- 13.7.5 The NWB shall have the right to delegate its authority to approve applications which do not require public hearings to the chief administrative officer of the NWB.

PART 8: PROVISION OF INFORMATION

- 13.8.1 Consistent with subsection 13(2) of the *Northern Inland Waters Act*, RSC **1985**, c. N-25, the NWB, when considering a water application, may issue guidelines to the applicant for provision of information with respect to the following:
- (a) project description;
 - (b) any qualitative and quantitative effects of the proposed water use on the water management area, including anticipated impacts on other water users of that area;
 - (c) steps which the proponent proposes to take to avoid and mitigate adverse impacts;

-
- (d) steps which the proponent proposes to take to compensate interests adversely affected by water use;
 - (e) the program the proponent proposes to establish for monitoring impacts of the water use;
 - (f) interests in the lands and waters which the proponent has secured or seeks to secure;
 - (g) options for implementing the project; and
 - (h) any other matters that the NWB considers relevant.

PART 9: ENFORCEMENT

- 13.9.1 Where approval of the NWB is required for a water application, the applicant shall not proceed until approval has been granted.

PART 10: OVERLAP

Interjurisdictional Water Management

- 13.10.1** Where a drainage basin is shared between the Nunavut Settlement Area and another jurisdiction, the Government of Canada and the Territorial Government, assisted by the NWB, shall use their best efforts to negotiate agreements with other jurisdictions concerned with the use and management of such drainage basins.
- 13.10.2** In the event that it is determined that the approval of a water application in the Nunavut Settlement Area would have significant bearing upon water use outside the Nunavut Settlement Area, the NWB may collaborate with the competent water authority in the review, if appropriate, of that water application.

ARTICLE 14

and upon such transfer the lands shall cease to be administered and controlled for the use and benefit of the municipality.

PART 6: MUNICIPAL BOUNDARIES

- 14.6.1 Nothing in this Article shall be construed so as to prevent the variance of a municipal boundary or the creation of a new municipality after the date of ratification of the Agreement. Such variance of a municipal boundary or creation of a new municipality shall not:
- (a) affect, in itself, the title to lands;

PART 7: RIGHT TO ACQUIRE SURPLUS GOVERNMENT LANDS

- 14.7.1 Where, after the date of ratification of the Agreement, Government determines that land within a municipal boundary held at the date of ratification of the Agreement, is no longer needed for government purposes, and such land has been declared to be surplus, Government shall convey the fee simple estate to the Municipal Corporation in exchange for nominal consideration.

PART 8: LIMITS ON ALIENATION OF MUNICIPAL LANDS

 - (b) the legal rights of Inuit in marine areas flowing from the Agreement are based on traditional and current use;
 - (c) Canada's sovereignty over the waters of the arctic archipelago is supported by Inuit use and occupancy;
 - (d) Inuit harvest wildlife that might migrate beyond the marine areas;
 - (e) an Inuit economy based in part on marine resources is both viable and desirable;
 - (f) there is a need to develop and co-ordinate policies regarding the marine areas; and
 - (g) there is a need for Inuit involvement in aspects of Arctic marine management, including research.

PART 2: APPLICATION

- 15.2.1 If a Park or Conservation Area is established and that Park or Conservation Area partially extends beyond the marine areas, Article 8 or 9, as the case requires, shall apply to that entire Park or Conservation Area.
- 15.2.2 Articles 5, 6, 8, 9, 11, 12, 23, 24, 25, 27, 33, and 34 shall apply to marine areas subject to any qualifications contained in those Articles.

The NWMB shall provide relevant information to Government that would assist in wildlife management beyond the marine area of the Nunavut Settlement Area.

-
- 15.3.5 Part 9 of Article 5 shall apply to any international or domestic interjurisdictional agreement relating to wildlife management applicable to Zones I and II.
- 15.3.6 The NWMB may identify wildlife research requirements and deficiencies, review research proposals and applications, and where appropriate recommend acceptance or rejection of such proposals or applications within Zones I and II and, in making any decision which affects Zones I and II, Government shall consider such recommendations.
- 15.3.7 Government recognizes the importance of the principles of adjacency and economic dependence of communities in the Nunavut Settlement Area on marine resources, and shall give special consideration to these factors when allocating commercial fishing licences within Zones I and II. Adjacency means adjacent to or within a reasonable geographic distance of the zone in question. The principles will be applied in such a way as to promote a fair distribution of licences between the residents of the Nunavut Settlement Area and the other residents of Canada and in a manner consistent with Canada's interjurisdictional obligations.
- 15.3.8 For greater certainty, nothing in this Article shall preclude Inuit access to wildlife for harvesting purposes in Zones I and II.

 - (f) on a case-by-case basis, identification may not extend to certain areas required at present, or in the reasonably foreseeable future, for federal or territorial government facilities or operations;
 - (g) on a case-by-case basis, identification may not extend to lands needed for public purposes or utilities, the need for which becomes apparent during the identification process;
 - (h) on a case-by-case basis, identification may not extend to within a 100 feet of certain shorelines; and

PART 7: THIRD PARTY ACCESS

Existing Interests

21.7.1 Where Inuit Owned Lands are subject to,

(a) a third party interest other than an interest in minerals, or

(b) a third party interest in respect of specified substances,

in existence immediately before the vesting of the Inuit Owned Lands in the DIO, the third party interest shall continue in accordance with its terms and conditions, but the DIO shall assume the rights and obligations of the Crown in relation to any such interest. The DIO shall receive whatever consideration is paid or payable by the interest holder for the use or exploitation of these lands and specified substances in respect of any period following the date of vesting.

21.7.2 Where Inuit Owned Lands held in the form referred to in Sub-section 19.2.1(a) are subject to a third party interest in minerals other than specified substances, in existence immediately before the vesting of the Inuit Owned Lands in the DIO, that interest shall continue in accordance with its terms and conditions, including rights granted to the interest holder under the legislation in force at the date of vesting pursuant to which the interest is held, or from any successor legislation applicable to similar interests on Crown lands. Any provisions of such successor legislation that would have the effect of diminishing the rights of the DIO shall only apply to Inuit Owned Lands with the consent of the DIO. The DIO shall receive whatever consideration is paid or payable by the interest holder for the use or exploitation of the minerals other than specified substances in respect of any period following the date of vesting.

21.7.3 Every third party interest referred to in Section 21.7.2 shall continue to be administered by Government in accordance with legislation applicable to similar interests in Crown lands. Subject to any consent from the DIO required by Section 21.7.2, such legislation, including any successor legislation, shall be deemed to apply to the third party interest unless the holder of that interest and the DIO agree to the administration of that interest by the DIO. Upon notification by the interest holder and the DIO of such an agreement, the legislation shall no longer be deemed to apply to that interest and Government shall do whatever is required to transfer administration to the DIO.

21.7.4 Subject to Section 21.7.5, all powers, discretions and authorities in relation to third party interests referred to in Section 21.7.2, affecting the interest of the DIO as title holder, shall be exercised by Government in consultation with the DIO.

21.7.5 Where Government has the discretion to reduce or waive a royalty payable by a third party interest holder referred to in Section 21.7.2, such discretion shall not be exercised without the written consent of the DIO.

-
- 21.7.6 Government shall share with the DIO any information received from a third party interest holder referred to in Section 21.7.2 which that party is required to provide by legislation, where such information is required to permit the DIO:
- (a) to verify the consideration paid or payable to Government by the interest holder for the use or exploitation of the minerals other than specified substances; or
 - (b) to participate in consultation with Government regarding third party interests as provided for in this Article.

21.7.7 A DIO receiving any information or documentation pursuant to Section 21.7.6 shall not disclose that information or documentation.

Exercise of Rights Respecting Minerals

21.7.8 An operator may exercise rights to explore, develop, produce or transport minerals, in, on or under Inuit Owned Lands only in accordance with the Agreement.

21.7.9 A person having a right to prospect for minerals and whose activities are of a nature that would not require a land use permit under the *Territorial Land Use Regulations* (SOR/77-210, March 4, 1977) if they were conducted on Crown lands, shall have a right of access to Inuit Owned Lands, for the purpose of conducting those activities, with the consent of the DIO, and the DIO shall grant its consent if the activities are conducted in a manner consistent with the code for expedited prospecting access approved pursuant to Section 21.7.10.

21.7.10 For the purpose of Section 21.7.9, the DIO shall propose, for review with Government and relevant industry organizations, a code to provide expedited prospecting access to Inuit Owned Lands, which code shall come into effect upon approval by Government and the DIO. The code shall reflect the need to provide confidentiality for prospectors.

21.7.11 Except where the operator is exercising a right of access under Section 21.7.1 or 21.7.9, no operator may exercise the rights referred to in Section 21.7.8 until it has obtained the consent of the DIO for the exercise of surface rights to Inuit Owned Lands. If the operator is unable to obtain the consent of the DIO, it may apply to the Tribunal for an entry order for its require purpose.

21.7.12 A person having a right to prospect for minerals shall, when applying to the Tribunal, make a separate application in respect of each parcel of Inuit Owned Lands, as indicated by the parcel designator, on which that person intends to exercise a right of access. The Tribunal shall take into account the need to provide confidentiality for prospectors.

21.7.13 Where a person who has no other right of access under this Agreement, requires access to Inuit Owned Lands to exercise a right under legislation to explore, develop, produce or transport minerals on lands other than Inuit Owned Lands, the provisions of Part 8 shall apply where it is established before the Tribunal that such access is reasonably required.

Other Commercial Purposes

21.7.14 Where the DIO has consented to permit a third party to cross Inuit Owned Lands for commercial purposes but they are unable to agree on appropriate compensation, the matter shall be referred to the Tribunal for resolution.

21.7.15 Where a person requires access across Inuit Owned Lands for commercial purposes, and is not otherwise covered in this Article, that person shall be permitted access, including on a seasonal basis where appropriate, with the consent of the DIO or, if such consent is not forthcoming after an arbitration panel, pursuant to Article 38, within 30 days of being presented with a request,

- (a) has established that the person attempted for a period of not less than 60 days, to negotiate the access in good faith,
- (b) has determined that the access is essential to the commercial purpose and access by any other means is physically or financially impractical, and
- (c) has determined the route such access will follow so as to minimize the damage and interference with Inuit use,

and, based on the arbitration panel's findings, the Tribunal, in keeping with Part 8, has issued an entry order. The entry order shall include terms and conditions to minimize damage and interference with Inuit use.

PART 8: SURFACE RIGHTS TRIBUNAL

Establishment and Authority

21.8.1 A DIO has the right to require Government to establish and maintain an independent Surface Rights Tribunal ("Tribunal") which shall, within the Nunavut Settlement Area:

- (b) hold hearings to determine compensation payable to the surface rights holders;
- (c) periodically review the level of compensation payable under an entry order;
- (d) terminate an entry order, after a hearing, where lands are no longer being used for the purpose authorized; and
- (e) such other functions as maybe provided for in the Agreement or legislation.

Government may establish and maintain the Tribunal notwithstanding the absence of a demand from a DIO, provided that the Tribunal fulfills the functions described in Section 21.8.1.

21.8.3 In determining the amount of compensation payable to the DIO in respect of Inuit Owned Lands, the Tribunal shall consider,

- (a) the market value of the land,

 - (j) an amount to cover reasonable costs to the DIO associated with the application for an entry order and its processing, and
 - (k) such other factors as may be provided for in legislation,
- but shall not consider the reversionary value or any entry fee payable.

21.8.4 Prior to exercising an entry order on Inuit Owned Lands, the applicant shall be required to pay the DIO the entry fee and 80% of its last compensation offer made to the DIO before it submitted the matter to the Tribunal.

21.8.5 The term DIO as used in Sections 21.8.3 and 21.8.4 shall include, where appropriate, any occupier of the land in question, and the Tribunal may apportion compensation between the DIO and the occupier.

21.8.6 With regard to Inuit Owned Lands, the period for review under Sub-section 21.8.1(c) shall be the lesser of five years or whatever period is provided in legislation. The DIO and the applicant may jointly waive the requirement for review.

21.8.7 The legislation shall provide that at least half of the members of any panel in any case dealing with Inuit Owned Lands shall be residents of the Nunavut Settlement Area.

21.8.8 The Tribunal shall conduct its business in Canada's official languages as required by legislation or policy, and upon request of any DIO, also in Inuktitut.

PART 9: EXPROPRIATION

21.9.1 Any person or authorized representative of any person, who has power of expropriation under federal or territorial legislation (expropriating authority), may exercise that power of expropriation in accordance with laws of general application as qualified by the Agreement.

21.9.2 Nothing in this Part shall be construed to give the Territorial Government more extensive powers of expropriation than are given to the legislatures of the Provinces.

21.9.3 An expropriation other than an expropriation referred to in Section 21.9.14, shall be approved by a specific order of the Governor in Council.

21.9.4 Any expropriation legislation coming into force after the date of ratification of the Agreement shall, insofar as it applies to Inuit Owned Lands, provide for the following minimum procedures:

-
- 21.9.5** Where the expropriating authority acquires an estate in fee simple, those lands shall no longer be Inuit Owned Lands. Lands acquired as compensation for expropriation shall be Inuit Owned Lands. Where lands which have been expropriated are no longer required, the DIO shall have an option for six months following such a determination to re-acquire those lands as Inuit Owned Lands. If the parties are unable to agree on a price, the matter shall be referred to the arbitration panel or committee referred to in Section 21.9.8.

 - (b) for expropriation under the *National Energy Board Act*, by an arbitration committee appointed under the Act that shall include at least one nominee of the DIO. The Minister in establishing the arbitration committee shall choose members who have special knowledge of, and experience related to, the criteria set out in Section 21.9.9.

-
- 21.9.10 Where an expropriating authority would have a power of expropriation of Inuit Owned Lands, or an interest therein under Section 21.9.1, that power may not be executed if:
- (a) 12% of all Inuit Owned Lands vesting on the date of ratification of the Agreement or an interest therein has already been and remains expropriated; or

- 21.9.12 Where Government has a right under Section 21.9.1, as qualified by this Article, to expropriate Inuit Owned Lands which it requires for its public transportation purposes, Government need not pay compensation for the lands taken, except for improvements, up to an amount not exceeding,
- (a) in respect of each Inuit Owned Lands Parcel, five percent (5%) of that Parcel, or
